# Amazon Go

Four year ago we started to wonder , what would shopping look like if you could walk into a store , grab what you want and just go ? what if we could weave the most \_\_\_\_\_ machine learning, computer vision and \_\_\_\_\_, into the very fabric of a store so you never have to wait in line ? no lines, no checkouts, no registers. Welcome to Amazon go. Use the Amazon Go \_\_\_\_\_ to enter then put away your phone and start shopping, it's really that simple. take whatever you like. Anything you pick up is automatically added to your \_\_\_\_\_ cart. if you change your mind about that cupcake just put it back. Our technology will update your virtual cart automatically. So how does it work ? we used computer vision, deep learning \_\_\_\_\_ and sensor \_\_\_\_\_ much like you'd find self driving cars. We call it Just \_\_\_\_\_ Out Technology. Once you've got everything you want you can just go when you leave, our Just Walk Out Technology adds up your virtual cart and \_\_\_\_\_ your Amazon account. Your receipt is sent straight to the app and you can keep going Amazon Go. no \_\_\_\_\_. No checkouts. No, \_\_\_\_\_

Four year ago we started to wonder , what would shopping look like if you could walk into a store , grab what you want and just go ? what if we could weave the most **advanced** machine learning, computer vision and **AI**, into the very fabric of a store so you never have to wait in line ? no lines, no checkouts, no registers. Welcome to Amazon go. Use the Amazon Go **app** to enter then put away your phone and start shopping, it's really that simple. take whatever you like. Anything you pick up is automatically added to your **virtual** cart. if you change your mind about that cupcake just put it back. Our technology will update your virtual cart automatically. So how does it work ? we used computer vision, deep learning **algorithms** and sensor **fusion** much like you'd find self driving cars. We call it Just **Walk** Out Technology. Once you've got everything you want you can just go when you leave, our Just Walk Out Technology adds up your virtual cart and **charges** your Amazon account. Your receipt is sent straight to the app and you can keep going Amazon Go. No **lines**. No checkouts. No, **seriously**

Would you use the Amazon go stores ?

What is the use of such a technology ?

What are the downsides of such a technology ?

In what kind of field would you implement that technology as well ?
